

# MVT IMPLEMENTATION

One record is submitted and displayed at the details side.

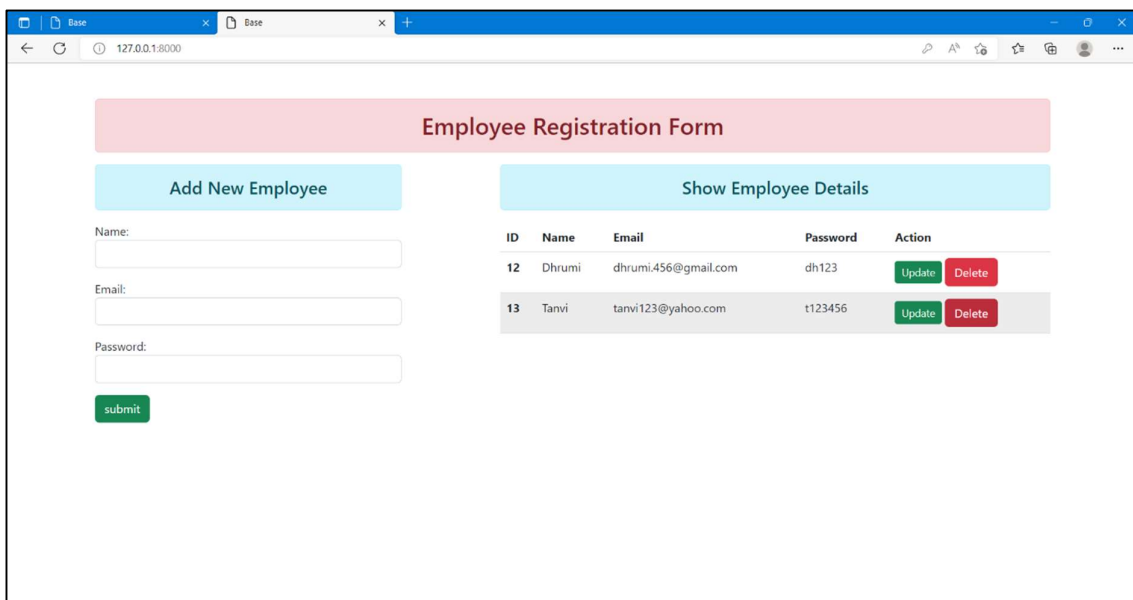

The screenshot shows a web browser window with the URL 127.0.0.1:8000. The page is titled "Employee Registration Form". It has two main sections: "Add New Employee" and "Show Employee Details".

**Add New Employee:** This section contains three input fields labeled "Name:", "Email:", and "Password:", each followed by a text input box. Below these fields is a green "submit" button.

**Show Employee Details:** This section contains a table with the following data:

ID	Name	Email	Password	Action
12	Dhrumi	dhrumi.456@gmail.com	dh123	<a href="#">Update</a> <a href="#">Delete</a>

Another record is also submitted and it is displayed.

The screenshot shows the same web browser window as before, but now the "Show Employee Details" table displays two records:

ID	Name	Email	Password	Action
12	Dhrumi	dhrumi.456@gmail.com	dh123	<a href="#">Update</a> <a href="#">Delete</a>
13	Tanvi	tanvi123@yahoo.com	t123456	<a href="#">Update</a> <a href="#">Delete</a>

Let's update records.

Employee Registration Form

Update Employee Details

Name:  
Dhrumi

Email:  
dhrumi.456@gmail.com

Password:  
\*\*\*\*\*

Update Go To Home

Employee Registration Form

Update Employee Details

Name:  
Tanvi

Email:  
tanvi123@yahoo.com

Password:  
\*\*\*\*\*

Update Go To Home

Updated values are changed on the display page.
